

Proposed Amendments to the PEIL 2014-2020 Evaluation Plan

The ESF Managing Authority requests that the Programme Monitoring Committee (PMC) approve the revised PEIL 2014-2020 Evaluation Plan.

Details of the proposed amendments to the Evaluation Plan are as follows:

- Cover page: Insertion of ESF twitter name and updated date
- Page 13: Change timeframe for the mid-term evaluation to reflect that it will be completed by Q4 2018 rather than Q4 2017. Article 56 of Regulation 1303/2013 requires that at least once during the programming period, an evaluation is carried out on how support from the ESF has contributed to the objectives of each Priority. The Mid-Term Evaluation had been originally timetabled for 2017. However, as advised to the PMC at its meeting in December 2017, it was deferred until 2018 with a view to combining it with the second YEI evaluation, to ensure that the evaluation can yield useful information and recommendations.
- Pages 16-19: Updates to reflect that some of the evaluations listed are now completed (timeframes and tenses used). Change reference to DHPCLG to DRCD.

May 2018
