

EMFF UP 6 : Fostering the Implementation of Integrated Maritime Policy

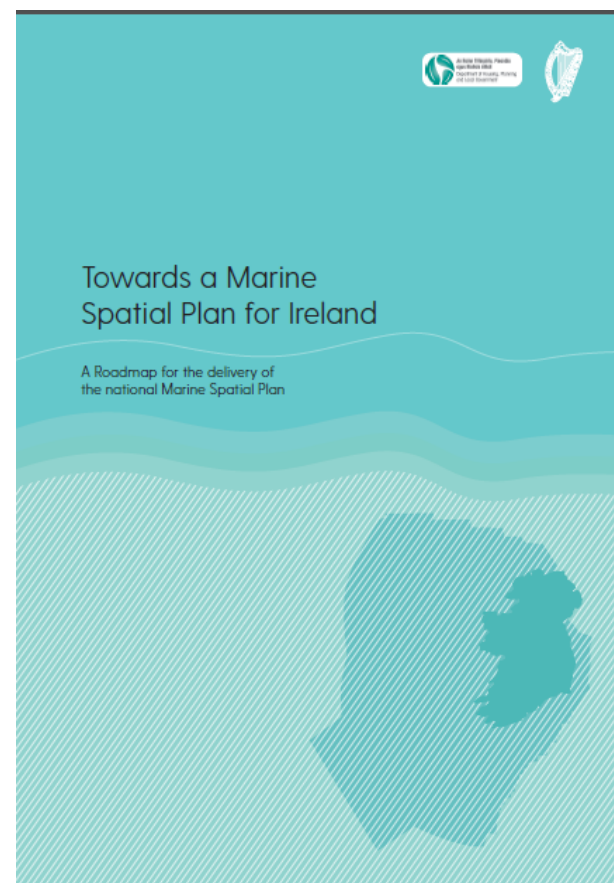

Blue Growth & Maritime Spatial Planning Scheme

MSP Projects 2018

Measures for MSP under UP 6 Fostering the Implementation of the IMP

Provide scientific & technical support to implement MSP Directive and National MSP Plan (as outlined in D/HPLG Roadmap).

2018 Work Programme Focus

Spatial Data and Evidence

- 5 Projects

MSP Data Management

- 2 Projects

Research (Invasive Marine Species)

- 2 Projects

2018 Work Programme Focus

Spatial Data and Evidence Projects

- Data Discovery, Collation and Gap Analysis
- Data Prioritisation and Collection
- Assess and Map Marine Ecosystems Services
- Mapping the Potential Impacts of Climate Change
- Best Practice on Modelling and Support Tools for Integrating Marine Spatial Data

2018 Work Programme Focus

MSP Data Management

- Data Integration for Improved Spatial Analysis and Representation
- MSP Data Governance

2018 Work Programme Focus

Research (linked to Biodiversity Programme)

- Marine Invasive Species Surveillance Methods to Facilitate Spatial Mapping in Irish Nearshore and Foreshore Waters and Benthic Habitats
- Mapping Ireland's Invasive Marine Species Incidence and Colonisation
